

Refresher Lessons

Refresher Lessons could be a suitable solution in various circumstances:-

You hold a full driving licence, but have not driven for some time

The type of driving you need to do has changed

(moved to a busier area)

(need to drive longer distances)

You lack confidence in your driving

You want to improve one aspect of your driving

(motorway)

(city centre)

(parking)

You want an assessment, to reassure yourself

You want to update your skills.

Everyone has a different reason, and requires something different from refresher lessons.

There is no test, so the scope of the lessons can be decided jointly by the client and the Driving Instructor, and any aspect of driving can be included.

Lesson length can be 1, 1½, 2 or hours, however I would recommend 1½ to 2 hours as being much more effective.

If you need to get your driving skills refreshed quickly I can also offer an Intensive Refresher Course.

Intensive Refresher Courses are structured as a 6 Hour Day.

The Course can be arranged as either consecutive days, or as a series of individual training days.
